

In 2008, Louise and Niels helped to establish an art gallery and cultural centre in a heritage building in Georgeville on the eastern shore of Lake Memphremagog. It is an artist-run space called [Studio Georgeville](#). The Coopérative des Artistes de Georgeville members host art exhibitions, literary events, film screenings, and other cultural programs throughout the year. This photo by Louise shows Studio Georgeville during an event called [Art and the Automobile](#) in 2008.
